

ELIAN BELOT

elian.belot@mail.mcgill.ca or elian.ca

Education

Bachelor of Science, Computer Science – April 2023 (*expected*)

McGill University, Montreal, Canada

Cumulative GPA: 3.64/4. Second-year, formerly minoring in Entrepreneurship.

French Baccalaureate – June 2020

Lycée David d'Angers, Angers, France

Obtained with Highest Honors. Scientific path (S).

Deep Learning specialization (*via DeepLearning.AI*) – July 2019

Set of 5 courses: Neural Networks and Deep Learning, Improving Deep Neural Networks, Structuring Machine Learning Projects, Sequence Models and Convolutional Neural Networks.

Specialization [certificate](#).

Machine Learning course (*via Coursera*) – March 2019

11 weeks course delivered by Stanford Online.

Course [certificate](#).

Experience

Programming projects – Ongoing

Personal projects written mostly in Python and centered around applications of Deep Learning. Won “[Best AI Hack for Education](#)” at MAIS Hacks 2021.

GitHub [portfolio](#).

Game server development – November 2017

Developed a game server in Lua using the Source Engine.

Built and managed a community of over 25,000 unique players and generated \$1,500 in revenue through a custom monetization system.

Internship at Blizzard Entertainment – February 2017

Blizzard France, Versailles, France

Discovered the video game industry by meeting employees working in marketing, customer relationships and graphic design.

Skills

Programming languages	Python, Java, Dart (fluent) C, Lua, JavaScript (familiar)
Technical skills	Data science, machine learning, mobile development
Technologies	AWS, Flutter, Pandas, Keras, Bokeh, Jupyter, Git
Languages	French, English (fluent) Spanish (beginner)

Interests

Entrepreneurship	Generating ideas and keeping up with startups
Classical piano	Romantic-era repertoire at an intermediate level
Reading	Interest in philosophy, neuroscience, psychology, literature
Composition	Self-taught music theory and classical composition
